SCHOOL MISSION

Northwestern Middle School Mission
We believe that school is for students. We believe that every student has learning value and worth, and that every student can learn. Our mission is to pace the learning at a rate that the student can accept and process successfully. We believe that students learn best in an atmosphere of warmth and caring, an atmosphere where orderliness, well understood routines, and clearly defined limits are an on-going part of their lives. The end product in education is a person who is self-sufficient, has the social skills to live and work comfortably with others, has acquired a system of moral and spiritual values and who can become a productive member of society.

Activities/Strategies:
- Common Assessments
- Technology Integration
- Curriculum Development
