

## Section 16: Supplemental Retirement Program (403B)

When school is over –  
**start a new life adventure.**

Smart move.™

## Retirement could be the best chapter yet

Supplementing your pension by participating in a 403(b) plan can help spell the difference between a lackluster retirement and one that allows for more adventure.

This can be a positive step toward financial freedom in retirement. Pretax contributions to a 403(b) plan account can lower your federal income tax each year, while at the same time any earnings grow at a compound rate, tax deferred until withdrawn.

Retirement can be full of opportunities.  
Don't miss them.

► Please give me a call today or send me an email for more information about how participating in a **Fidelity Advisor 403(b) plan** can help you get the most out of retirement.
