

## **Zachary Community School District**

### **GROUP COMPOSITION**

The maximum group size that may convene indoors in a single room will be determined by physical distancing requirements.

- Classrooms with students and teachers who are not fully vaccinated and unable to maintain physical distancing requirements will be assigned static groups, to the greatest extent possible. The static group composition will be maintained for as long as possible.
- The composition of a group may change if students are able to maintain a physical distance of at least three feet from other students and six feet from adults in a classroom or indoor setting, to the greatest extent possible. Adults should maintain six feet of distance from other adults.
- Students with disabilities will continue to receive special education and related services in the least restrictive environment. Zachary Community School District will factor in any additional service providers who may need to enter the classroom, students who receive services outside the classroom (e.g., resource, APE), and/or students who receive services through alternate instructional methods.
