

ZCSD

is proposing a reallocation of tax money to provide:

- **Employee Compensation**

- Technology Upgrades
- Facilities Repairs

**Your tax rates
will not
increase.**

We are asking for funds to be dedicated in a new way.

If the proposition passes, ZCSD will be able to:

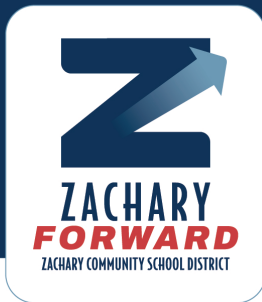

**Attract and keep
the best staff**

**Utilize current
technology**

**Address facilities
issues timely**

The proposition would authorize the Zachary Community School District to allocate tax money to fund three specified areas

ON NOVEMBER 15

voters will have the opportunity to authorize existing school tax funds to be used for critical needs within the district, all without raising the tax rate on residents.

When our district was first established, the major need was for facilities. Since then, our success has been rooted in the dedication of our educators, the strength of our academic programs, the support of our community, and the commitment to providing safe, innovative and student-centered learning environments. Today we face new challenges to maintain our model of excellence.

To proactively address this, a proposition was developed with extensive input from ZCSD stakeholders, advisory groups and with support from the School Board. The proposal is to continue collecting a property millage that is already in place from bonds that are being paid off and dedicate that money for critical needs in the school district.

**Your tax rates
will not increase**

Without this measure, there's no dedicated funding for these needs, and we risk falling behind our high standards and shifting funds away from other programs that are also priority areas.

Employee Compensation

With staff raises and better benefits we can recruit and retain the best of the best.

Technology Upgrades

Keeping up with evolving technology will give our kids the best opportunities to learn.

Facility Repairs

Our buildings are becoming old and need timely maintenance.
