Meaningful results

Hi Shane. Hope your day is going well! I'd love to learn more about your goals, which could include eating nutritious meals, increasing activity, and improving your sleep. What would you like to focus on first?

Thurs, 3:45pm

Hey Lorena. I'd like to start out with nutrition. I've been eating out a lot, but I'm trying to cook for a change, and I'd love to experiment with healthier options.

Fri, 9:02am

That's a fantastic goal. Let me know your food preferences or if there are any cuisines you've been meaning to try. I'll recommend how to start in my favorite part of the grocery store—the produce section!

Omada for Prevention

Reducing the risk of type 2 diabetes and cardiovascular disease

Prevention Overview

Omada is the largest digital CDC-recognized Diabetes Prevention Program provider in the United States. We help participants lose weight (and keep it off), build strategies for healthy eating, activity, sleep, and stress management, and reduce the risk of developing type 2 diabetes and cardiovascular disease—one step at a time.

“With Omada I continue developing a personal mission toward lifelong health based on my personal changes. Omada gives me great tools for reality check of how I am doing, a coach that gets me, and team members who are also challenging their past relationship with food, activity, and mindful living.”
 – Lisa 65, Anaheim, CA

Lasting Change

Our clinically-backed approach to lifestyle change sets us apart. By empowering participants to build skills that are personally relevant, at a pace that is manageable, with the support of others, we help them stay engaged and make changes that last. Key elements of our approach include:

Autonomy and intrinsic motivation

Building skills

Providing accountability

Addressing barriers

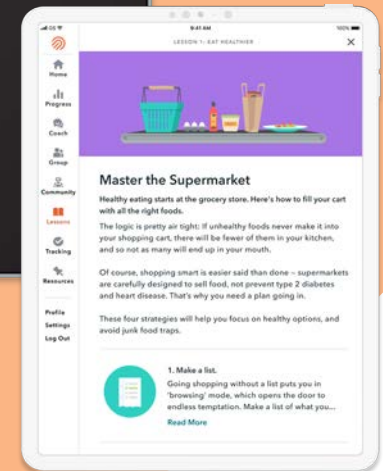

Promoting coping
